FEATURES

Model : WA-SD-B

- Features:**
- 304 grade stainless steel pump body
 - 1.25L plastic reservoir bottle

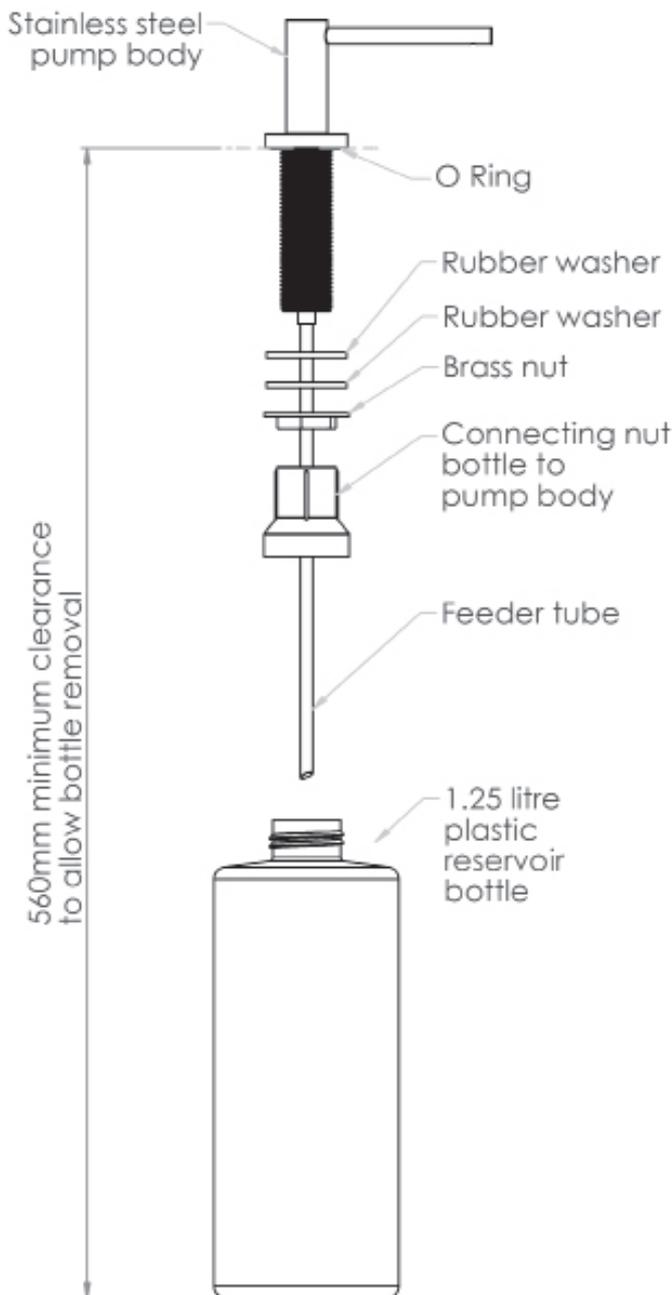

IMPORTANT INFORMATION

Note: Please follow the below procedures. If the below procedures are not followed it may impact the life of some components and void warranties.

- It is recommended that this product be installed by a licensed tradesperson.
- This product may also be subject to height and location conditions to comply with AS1428.1 for accessibility.
- It is the responsibility of the installer to fix the washroom accessory in the correct position.

INSTALLATION INSTRUCTIONS

1. Mark the position for mounting hole on the benchtop.
2. Check there is adequate space between the reservoir bottle and the basin underneath.
3. Check there is sufficient height below the benchtop to allow removal of the reservoir bottle.
4. Check the hole position is close enough so the spout can direct the soap into the basin.
5. Drill Ø25-28mm mounting hole.
6. Unscrew and remove the bottle and the black plastic connecting nut.
7. Unscrew and remove the brass ring-nut and the two rubber washers.
8. Carefully position the pump in the mounting hole.
9. Fit at least one of the rubber washers and the brass ring-nut to the bottom of the pump. Turn the screw until the rubber washer seats on the underside of the benchtop.
10. Turn the pump body so the spout is in the correct position and tighten the ring-nut.
11. Screw the black plastic connecting nut to the bottom of the pump body. Tighten by hand only. Do not use a wrench or pliers.
12. Fill the reservoir bottle and screw into the connecting nut.
